SUMMARY

Detail-oriented Logistics and Accounting graduate with a Bachelor of Commerce background and strong academic exposure to ERP systems, inventory control, invoicing, and operational reporting. Hands-on experience with ERP software (2024–2025) and Flower Base software (2025) through academic and freelance project environments, supporting inventory tracking, sales coordination, and documentation workflows. Served as a College Union Leader at Mannam NSS College, demonstrating leadership, coordination, and stakeholder communication skills. Possesses analytical thinking, process-optimization ability, and a strong foundation in logistics operations, accounting fundamentals, and data-driven decision-making, with readiness to contribute effectively in logistics, ERP support, operations, or entry-level accounting roles.

WORK EXPERIENCE

Independent ERP Developer & Operations Analyst - 2024 – 2025

- Worked on ERP software projects (2024–2025) focused on inventory tracking, stock movement, and delivery load planning.
- Used Owllo ERP and Flower Base software (2025) to support inventory control, sales coordination, and operational reporting.
- Assisted in real-time data synchronization between operations and management to improve stock accuracy.
- Digitized invoicing and logistics documentation workflows, reducing manual data entry errors.
- Generated structured inventory, sales, and MIS reports to support operational decision-making.

Freelance Business Analytics & Digital Process Consultant - 2024 – 2025

- Delivered academic projects in a freelance format, simulating real business and operational environments.
- Applied AI analysis and prompt engineering to streamline reporting, documentation, and data workflows.
- Supported basic accounting, invoicing, and cost-tracking processes for small business use cases.
- Coordinated with stakeholders to align operational data with sales and logistics objectives.
- Improved workflow efficiency through data analysis and process optimization techniques.
